## PROJECTS / OPEN-SOURCE

KENYAEMR+ | LINK Java, HTML & CSS, JavaScript, Groovy

My team and I were tasked with developing a new module for the system to handle wavering charges in hospitals.

MY PORTFOLIO WEBSITE | LINK HTML5, CSS3, JavaScript

This is a central display of Njoroge Francis as a web developer, especially front-end web developer. It contains a list of all projects that I have tackled during my professional life. The portfolio website also acts a central point to all my social media profiles.

## CERTIFICATIONS

- HealthIT Hackathon Certificate - **HEALTHIT KENYA**
